CITY OVERVIEW

Warangal is a heritage city established in 1163 AD, as the capital of the Kakatiya Dynasty.

In 2013, 42 Villages were merged with the Warangal Municipal Corporation and in 2015, the ULB was declared a Greater Warangal Municipal Corporation. It is the only ULB in Warangal Urban District, being mostly coterminous with the district except for 6 rural mandals & few villages of Warangal Rural district. Presently the GWMC comprises of 58 wards, spread across 5 Assembly Constituencies.

As per the 2011 census, the population of Warangal is 8.19 lakhs, spread across an area of 407 sq. kms. It is the second biggest city in Telangana after Hyderabad with a predominantly urban & semi-urban population that falls within the GWMC limits.

Warangal City Economy is predominantly agricultural with widespread cultivation of Rice, Cotton, Grams, Chilies etc. The location of the city, transport linkages and commercial facilities make the city an economic hub for surrounding Rural regions. The City also attracts tourists from all over the state and country owing to heritage value of Warangal Fort, Padmakshi Temple, 1000 Pillar Temple, Jain Temple sites etc.

The City has an emerging and diverse economic base in form of IT Industry, Mega Textile Park, Leather Park, Agro Industries supported by Educational Institutes of National Importance.

Warangal is a unique with respect to its significance as a heritage city as well as an emerging Industrial and IT Hub with rapidly changing demographics. It has been one of the 12 cities at the National Level selected for development of city heritage in partnership with INTACH, under the HRIDAY Scheme in 2015. It has been selected under the Fast Track Category, as one of the 100 Smart Cities under the Smart Cities Mission in 2016 with focus on primarily Area based development projects and integration of IT in governance through a pan city project.

Vision: “Transform Warangal into an Economic Hub in Telangana with a focus on Tourism and Heritage and to make it a Liveable, Clean, Green, Inclusive, Safe, Citizen Friendly and Well-Governed city”.

In order to meet the new vision Warangal has taken up several prominent schemes for Infrastructure development.

A seismic shift in city facelift & ease of living has been witnessed through the flagship Pattana Pragathi Program of Government of Telangana, wherein the city has been receiving Rs 7.33crores funding per month since February, 2020 for taking up crucial durable urban assets such as Public Toilets, Street Lighting, Integrated Market Complexes, Street Vending Zones, Auto Stands, Bus shelters, Parks, Urban Lung Spaces, Vehicles for sanitation, DRCC centers, Composting units, Crematoriums & Burial Grounds & Major roads improving connectivity.

Under Pattana Pragati Program and as an active participant under Safaimitra Suraksha Challenge & Swachch Sarvekshan, GWMC has been taking steps towards cleaning and greening the city. Thus, standing by our promise of "Committed to Cleanliness".

Development of Green Spaces has been taken up under Telangana Ku Haritha Haram Program with a green budget of 20 Crores and Plantation of 15 Lakh Saplings distributed to various projects including unique initiatives such as Legacy parks (Pay for plantations), Vanitha Vanam, Raasi Vanam, Monkey Food Court etc.

Housing Scheme of 2bhk Housing by the Telangana Government is providing standardized, Quality and Affordable housing options for the beneficiaries . In Warangal, construction of 2100 houses in 3 phases with cost of 112 crores is under progress.

Master Plan for Kakatiya (Warangal)Development Area has been prepared for year 2041 with central focus on Warangal City, projecting the demographic and economic growth of the city. The Master Plan envisions Warangal to become a 3 Million City in Plan Period, proposing urban infrastructure of Inner Ring Road, Outer Ring Road and Regional Ring Road with 18 Radial Roads. Social Infrastructure Development along with Urban Redevelopment and Green Spaces have been earmarked in the plan for planned and holistic development of the city.

Assessing the demand of Public Transit in the city, feasible and viable option of NEO Metro Neo is being pursued by State Officials. The DPR is under is progress for the Initial phase of 15 Km of the Transit Route through Hyderabad Warangal Road, the main spine of Warangal City

Under Smart City, the focus in the past year has been on infrastructure for solid and liquid waste management like Faecal Sludge Treatment Plant, Biomethanization units & STPs and Smart Roads. Under Cycles4Change Challenge, the city has taken up a pilot & drive to make the roads cyclist friendly and safe for Non-motorized transport.

Under HRIDAY Program by INTACH, Development Works, Illumination and Facilities are provided at a cost of 40 Crores at Warangal Fort, Padmakshi Temple , 1000 Pillar Temple and Hanamkonda Jain Sites with majority of works in completed stage and under progress.

Augmentation of Water Supply System is being taken up under AMRUT Program at a cost of 630 Crores. Besides that State level Scheme of Mission Bhagiratha is being executed in Warangal connecting the city to a state wide Dinking Water Grid. Mission Kakatiya is being executed for rejuvenation of lakes around the urban areas of the city for long term Water Resource management.

BUDGET & REVENUE

Income Sources

- Pattana Pragati Grants: Rs. 81.54 Crores (From February to December, 2020)
- SC Sub Plan Grants: Rs 33.06 Crores

PATTANA PRAGATI PROGRAM

29

Parks provided with Play Equipment/Infrastructure under CMA-Rs 35.07 Cr.

26

Parks provided with Facilities under Pattana Pragathi

Dumping Yards

- Decentralisation of the existing Dumpyard.
- 4 additional dumping yards established in Mupparam, Kakirallapally, Kannaram, Rampur in 55 Acres of land.

Vehicles for Sanitation & SWM

- 268 vehicles procured for Sanitation, with a total cost of Rs41.83 crores.
- Sweeping Machines (12), Tractor Trailers (56), JCB Excavator loaders (6), Heavy Tippers (8), Hydraulic Excavators (2), Garbage Compactor (9), Twin Bin Dumper Placers (10), Bob Carts (2), Auto Tippers (150), Tractor tankers (10), Jetting Machine (1), Bus Toilets (2)

ENGINEERING WORKS

Existing Roads in GWMC

Total Road Length (in Kms)- 4940.2

- As per the records CC Roads - (in Kms)-1400
- BT Roads - (in Kms)- 600
- WBM Roads- (in Kms)- 660
- Gravel Moram Roads(in Kms)-
- Katcha Roads- 1100.2

Addition of New Roads in Year 2020

Sl. No.	Category	BT Road (km)	CC Road (km)	WBM road (km)	Gravel Road (km)
1	Single lane	-	19.00	22.00	38.00
2	Double lane	20.05	1.50	-	-
3	Four lane	1.30	-	-	-

Existing Drainage in GWMC

- Total Drainage Network- 1274 kms
- Total Length of Nalas- 52 Kms
- Above 1 meter Storm Water Drains- 130 Kms

Addition of New Drains in Year 2020

Sl. No.	Category	BT Road km
1	Storm Water Drain	8.00
2.	Internal Drainage	31.00

STREET LIGHTING & ENERGY CONSERVATION

15
Lakhs

Saved during lockdown for 60 days due to COVID-19 by switching off street lights at certain locations, also discouraging movement of People .

37
Lakhs

Saved per annum by reducing 2723 KVA to 1920 KVA for Reduced Contact Maximum Demand Water Pumps.

30
Lakhs

Saved per annum by delinking 335HP pump sets of Old system at Desaipet Filters and connecting to New System.

6.22
Cr.

Total Savings in year 2020 through Energy Efficient Street Lighting, New pumping systems and COVID-19 Lockdown Measures.

Street Lighting

- Rs 54 Million per Annum saved through 65000 Energy Efficient Street Lights maintained by EESL saving 7 Million units.
- 576 Street lights at central median along four major roads are being executed for Rs 3.5 Cr. under SCM funds.
- 400 Ornamental Lights Installed from Fathima Jn. to DPO Jn. As part of Streets for people Challenge by MoHUA, GoI.
- 6000 additional lights are being installed under CMA and Pattana Pragati program to provide better illumination and enhance safety.
- 40 Light Poles and post Top Illuminaries installed at Children's Park and Vajpayee Park to enhance safety and illumination.

TELANGANA STATE ENERGY
CONSERVATION AWARD 2020

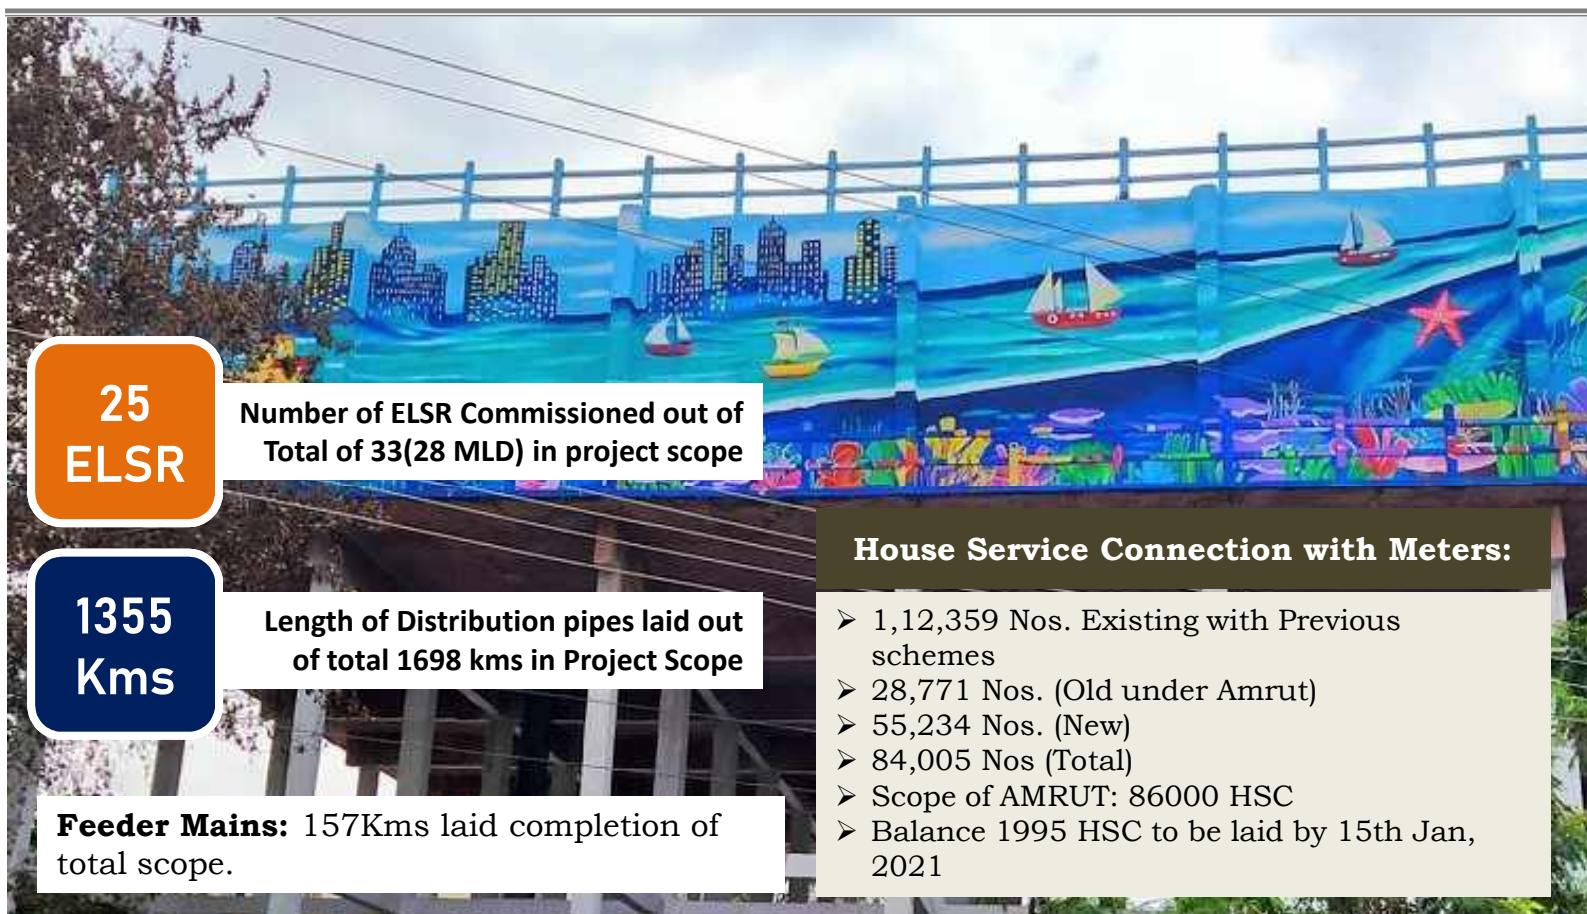

Power generated from 2 Bio-Methanation plants of capacity of 1 & 2 PTD at Children's Park and GWMC Office

SMART CITY MISSION

Vision:

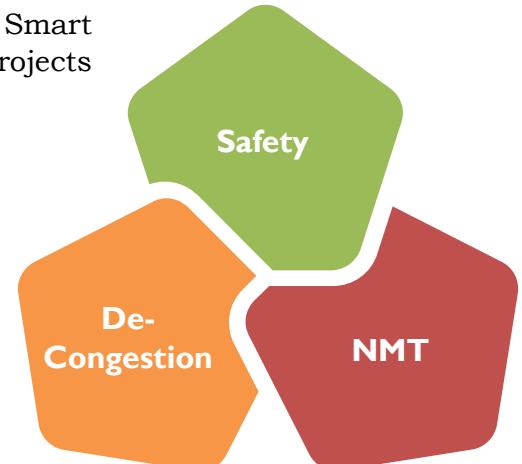

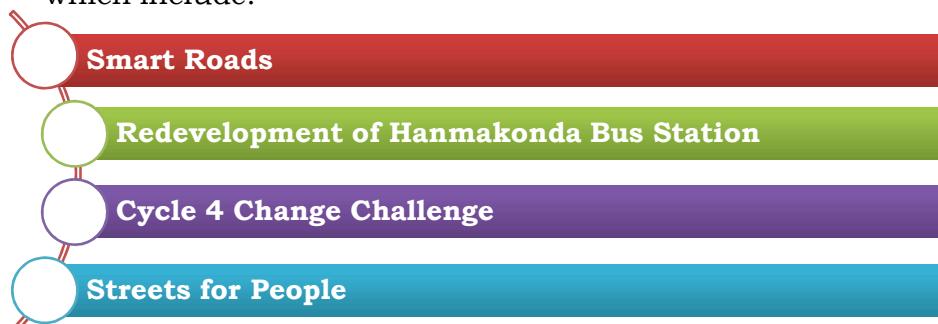

Greater Warangal Smart City Corporation Limited envisions to “Transform Warangal into an economic hub in Telangana with a focus on tourism and heritage and to make it a liveable, clean, green, inclusive, modern, safe and citizen friendly and well-governed city”.

The projects mainly aim in improving the Mobility, Drainage, Sewerage, Water Supply, Public Spaces and the Public Governance System. Despite the COVID 19 situation, the Smart City Projects have progressed well since the beginning of this year.

SMART MOBILITY:

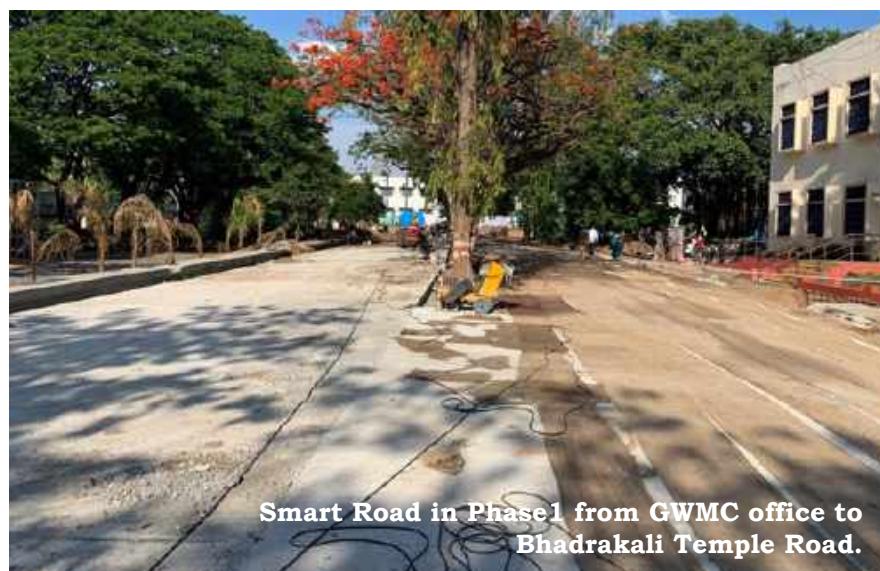

With an objective of improving the mobility, Greater Warangal Smart City Corporation Limited (GWSCL) had taken up various projects which include.

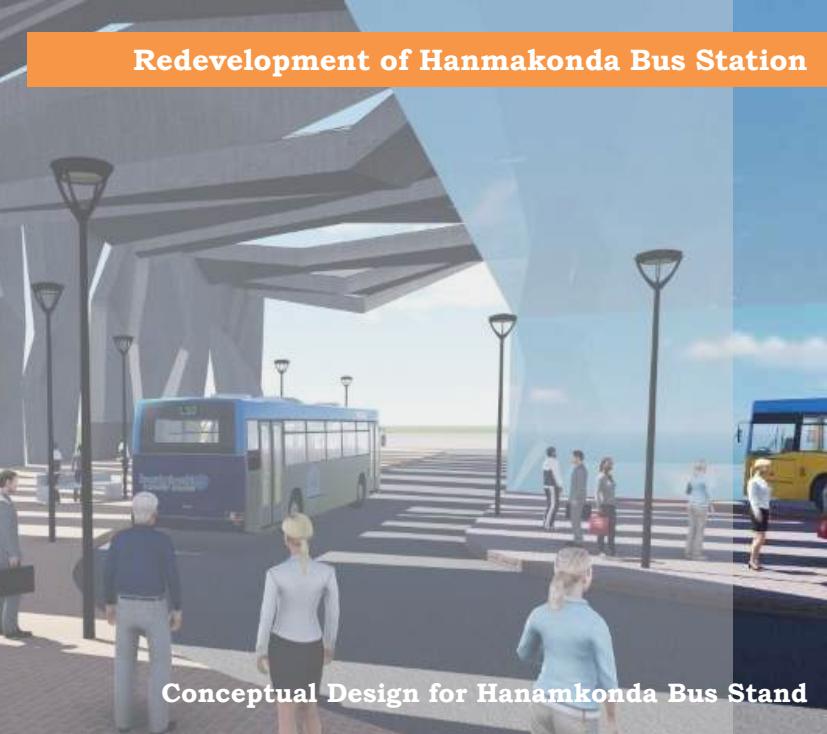

Smart Roads

Emphasizes on enhancing safety, reducing congestions and providing NMT facilities.

- Wider Roads
- Footpaths
- Cycle Tracks
- Storm Water drains
- ICT Ducts
- Utility Cross Pipes
- Parking Spaces
- Landscaping
- VMS
- Central and Footpath lighting
- Street Furniture
- Road Signage

Smart Road in Phase 1 from GWMC office to Bhadrakali Temple Road.

Conceptual Design for Hanamkonda Bus Stand

Cycle 4 Change Challenge

- As a part of the Cycle4Change challenge which is an initiative of the Ministry of Housing and Urban Affairs Government of India, Laying of Cycle track (4KM) including street furniture from Fatima to Subedari was taken up under the Smart City.
- To promote cycling in Warangal, GWSCL had conducted two events in which the people from various backgrounds had participated.

Streets for People

As a part of the street for People challenge which is an initiative of the Ministry of Housing and Urban Affairs Government of India for improving the NMT facilities, 400 Ornamental Lights were installed on the foot path from Fatima Jn to DPO (4 KM)

Waste Water Management

- For the first of the kind in the State, a 750 KLD STP was constructed and Commissioned at MGM Hospital.
- To rejuvenate the lakes and reduce the pollution, three (3) Decentralised Sewage Treatment Plants - 100 MLD at Reddypuram, 15 MLD at Pragathinagar, 5MLD at Ursugutta are being executed

750 KLD STP at MGM Hospital

Solid Waste Management

- Bio Mining of the Legacy Waste at Rampur Dumpsite is being executed under the Smart City.
- The Refuse Derived Fuel generated will be supplied to the nearest Cement Factories.
- Two truck Mounted Road Sweeping Machines of 3.5 Cum Capacity are commissioned.
- Two Transfer Stations (Balasamudram and Pothana) of each 120 TPD are being developed with a cost of Rs 12.5 Cr.

Waste to Energy Projects

- Two Bio Gas Plants (6 TPD at Excise Colony & 5 TPD at Laxmapuram) are being executed.
- The energy generated through the Bio gas will be used for street lighting

Faecal Waste Management

- A 150 KLD Faecal Sludge Treatment Plant is being executed.
- The Tender for the project with a O & M of 9.5 Years is already floated.
- The FSTP Plant in Warangal will be the largest one to be constructed in the State

Place Making

To improve recreational space, an urban plaza which includes Cafeteria, Souvenir Shops, Performing Area, Open Seating, Kids Play Area, underground Parking and Public Toilets. is planned at Hanamkonda Chowrasta which is located at heart of the City.

City Branding

- To maintain the City's Culture, 5 Grand Entrance Gates are being developed at five entrances (Hyderabad, Karimnagar, Khammam, Mulugu and Narsampet) Roads that Connects with Warangal

Lakefront Development & Parks

- To improve the recreation Space and leisure activities, Five Lakefront (Bhadrakali, Ursugutta, Waddepally, Bandham and Chinna Waddepally lakes) Development projects are being executed.
- To improve green cover, three major parks (Public Garden, Kakatiya Musical Garden and Zoo Park) are being developed.

Social Infrastructure

- To improve the recreation Space and leisure activities, Five Lakefront (Bhadrakali, Ursugutta, Waddepally, Bandham and Chinna Waddepally lakes) Development projects are being executed.
- To improve green cover, three major parks (Public Garden, Kakatiya Musical Garden and Zoo Park) are being developed.

KUDA DEVELOPMENT WORKS

Development Activities

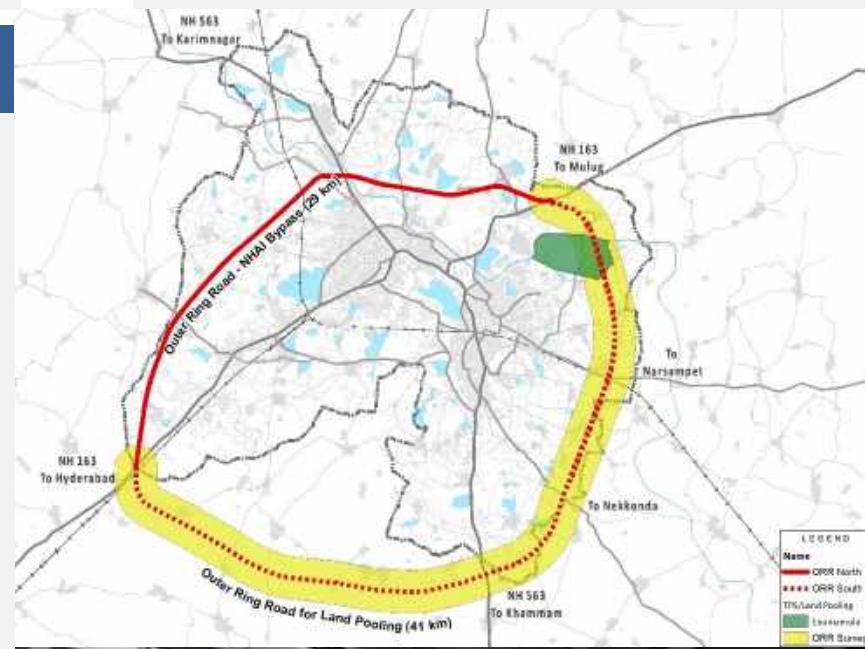

- Development of 4 junctions.
- Development of 2 Parks;
- Central Medians on Major Roads
- City Wise Wall Paintings- 80 Lakhs
- Development of Infrastructure at O City
- Ransamudram Promenade development.
- Madepally Township Roads
- Illuminating and Beautification works

Land Pooling Schemes

- The land pooling is proposed along ORR for a length of 41 kilometres from Arepally (NH-165) to Khammam road (NH-565) under phase I and from Khammam road (NH-165) to Pindial (Nh-165) under phase II. Detailed topographic surveys are being carried out by TRAC and STP agencies along these stretches.
- KUDA has established a special task force with the retired Mandal Surveyors and Tahsildars to identify the Government Lands and assigned lands and initiated LPS on ORR Growth corridor.

Telangana ku Haritha Haram

- 3 NURSERIES raised 14.15 lakh saplings- Rs.1.50 crores
- 8 Urban lung spaces are proposed along NH and SH viz; Hyderabad, Karimnagar, Mulug, Narsampet, Khammam & Rampur for an extent of 96-09 acres. Miyawaki plantation for an extent of 30 acres is underway in Fort Warangal

Warangal Metro Neo

Kakatiya Urban Development Authority has entrusted MAHA-Metro for the preparation of Detailed Project Report (DPR) on 25-02-2020 to develop Mass Rapid Transit System (MRTS) for the city of Warangal.

WAY FORWARD

GWMC Goal for 2021:

- Implementation of Flood Action Plan
- Establishment of 150 KLD FSTP, 2 Transfer Station, Reclamation of Rampur Dump yard by Bio-mining of Legacy waste, setting of 3 STPs, Waste Processing plants for Construction & Demolition debris will be the key focus in Sanitation.
- Establishment of smart Water Metes in each households, syncing the residential/ Commercial Assessments of Property database with nature of House Service Connections under AMRUT water supply scheme, to bring down the Non-Revenue Water t permissible limits, saturation of all major structures with rain water harvesting pits will be focus areas in Water Supply and Conservation.
- Improving the Slum Sanitation, Introduction of third bib=n for Household Hazardous Waste and Improved Collection of Residential user charges for door-to-door collection by Swachh Autos.
- Encouraging cycling & non motorised transport under Cycles4Change Challenge & developing citizen friendly roads under Streets for People Challenge under Smart City Mission.
- Implementation of DPR of Metro Neo by KUDA.
- Completion of Land Pooling Initiative along the ORR & Completion of IRR Project by KUDA.
